EDUCATOR INCLUSION MODULES

Are you an educator or professional who works with children ages 0-5?

Please join us for this upcoming training for educators, to learn more about preparing for meetings with families regarding developmental concerns. We will especially focus on establishing collaborative relationships with families, as well as understanding and supporting the different ways they may respond in these meetings. Please note this training will be interactive and may use break-out rooms. Active participation is expected from participants.
