

Math Learning Through Play: A Training Series & Professional Learning Community (PLC)

Virtual Training Series!

Language

English

Time

6:30PM–8:30PM

This new training series and PLC is designed for Early Childhood Education (ECE) educators seeking to enhance their math teaching practices for young children.

- Through hands-on activities, group discussions, and shared experiences, participants will explore innovative strategies to integrate math into daily routines and use unusual materials to foster mathematical thinking.
- This professional development opportunity aims to help educators delve into key math concepts like classification, patterning, number sense, and math operations, and to develop effective strategies for facilitating math learning in the early years
- By joining, educators can expect to gain valuable insights, share experiences, and collaborate with like-minded professionals to improve their math teaching skills. Professional development hours will be provided.

Facilitator: Yudy Larraburu
