The training will guide providers of children and early childhood educators who work with infants, toddlers, preschoolers, and toddlers primary to understanding trauma. We explore the impact of trauma on the brain, behavior, learning and development. Introduces a range of responses to trauma and developmental teaching strategies of resilience that they can use in their early childhood to create environments based on strengths that support children's health and healing

Please note

- All participants must register to attend the training.
- Commitment to the training is important. Please remain present and actively participate. Minimize distractions and keep your screen on.
- All training sessions may be rescheduled or cancelled due to insufficient enrollment.
